

Rottnest
Channel Swim Association

How to manage your registration

All swimmers (solos, duos and teams) must manage their own registration details by logging into their Active Network 'My Events' portal. All swimmers can then see and update their swim history, qualifying swim details and purchase additional merchandise. Solos and team captains will also be required to update support crew details (boat and skipper information) for the team.

1. Login to your Active Network 'My Events' portal using your email address and password used during registration: <https://myevents.active.com/>
If you cannot remember your password please use the 'Forgot your password' option.
